Terms of Reference

This document is meant to outline the terms of reference for the provision of a software system for the management of operations for Sirius Fish by Emlogicx Systems.

Features:

- The modules and features agreed upon are as described in the attached Invoice and according to the wishes of Sirius Fish
- Any additional features may be included on request by Sirius Fish upon agreement of new terms.

Payment:

- The payment is agreed to be a total of 3.5M payable in the following way
- 2.5 Million paid as an advance before commencement of work
- 1 Million paid upon completion and delivery of the system.

Delivery:

- The system shall be delivered (adaption, configuration, training and testing) in a suitable time of an estimated Maximum of 1 month from the date of payment of the advance.
- Delays in the execution caused by either Sirius Fish or Emlogicx Systems should be agreed upon and the delivery time extended accordingly upon mutual understanding and good will.

Installation and Training Charges:

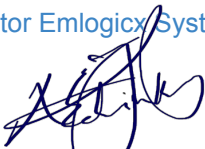

- Sirius Fish will take care of the charges incurred in displacements related to the installation and configuration and training, during the process of setting up the system.

Service and Warranty:

- Emlogicx systems will provide this system with a warranty of 1 year that covers the following:
 - Initial installation and training of staff
 - Setup of hardware
 - Support and Troubleshooting of the system
- The warranty does not cover hardware not supplied by Emlogicx Systems
- The warranty does not cover issues that arise outside of issues concerning the functioning of the software that can be attributed to Emlogicx Systems
- At the end of the warranty period, Sirius Fish and Emlogicx can come to an agreement
